J**SPYKILLS 6 cont...**

The seperated teams make direct loud & clear embellishments to randomly chosen targetgroups and Vircingetoris is now ready, alone, male, in the undergroundworlds.

Vircingetoris's task is that of a top spykiller. He, rook of the gods & goddesses, demi-god of individual strike-positions, is ready for action and has his targetgroups. He, Vircingitoor now must rely on sheer individual consistency, might, guile, to the death, to the death, want to do to AC. He must rely on his own intelligence & his face changes and disguises.

Vircingetoris, to the death, in immortal combat to the N, rules being individual dual combat.
